Covid-19

EFFECTS OF COVID-19 ON TOURISM

Tourism is a major economic driver in Northern Ontario with receipts ranking higher per capita than those of other regions in the province and many provinces in the country.

Tourism is the largest employer of young workers in the province and Destination Northern Ontario's research reveals that 40% of the workforce in the region, as well as one-in-five businesses, are tourism-related.

In 2019, tourism receipts in the region accounted for \$1.5 billion in spend, contributing \$400 million to Ontario's GDP. Demand for accommodations in region 13 has increased by 31% from 2012-2017, at a compound rate of almost 7%.

COVID-19 had an unprecedented impact on the tourism industry during the 2020 and 2021 seasons, and therefore completely reshaped the regional profile of RTO13.

In order to track the impact to the region, Destination Northern Ontario undertook impact surveys in partnership with Nature and Outdoor Tourism Ontario (NOTO), shared and supported impact surveys from the Tourism Industry Association of Ontario (TIAO) and continued tracking fixed roof accommodation performance throughout the year.
