EXPERIENCE THE OUTDOORS

Beautiful sandy beaches, crystal-clear waters and kilometres of hiking trails are found throughout the Algoma region. Kayak and canoe enthusiasts can enjoy fully guided and outfitted paddling trips on many lakes and rivers. There are multiple opportunities to photograph wildlife in their natural surroundings. Over 95 species of birds live in the Algoma region during different times of the year, as well as diverse wildlife including moose, deer and black bears. Aubrey Falls is a large remote waterfall on Highway 129 on the Mississagi River.

Canadian painter Tom Thomson took a 2-month canoe trip down the Mississagi River with a stop at this waterfall.

- Potholes Provincial Park is a geological wonder. "Potholes" were formed by glacial erosion 10,000 years ago and today, water still flows through these potholes creating miniature waterfalls along the Kinniwabi River.
- Chippewa Falls on Highway 17 marks the halfway point between the east and west coasts of Canada on the Trans Canada Highway 17. This roadside waterfall is easily accessed via walking trails, with several viewing points.

- Chapleau Game Preserve is the largest game preserve in the world, with over 2 million acres of protected land for wildlife to flourish, and diverse types of flora and fauna.
- Stop at Old Woman Bay in Lake Superior Provincial Park, named for the face seen in the rugged cliffs.

GROUP OF SEVEN COUNTRY

Experience authentic nature and culture in Algoma Country along the North Shore of Lake Superior, in rugged wilderness and remote lodges. These same, unspoiled landscapes inspired the journeys and the iconic works of Canada's most famous art collective: the Group of Seven. This small group of rebellious Canadian artists were determined to create a new way to represent the rugged Canadian landscapes, leaving a rich legacy of paintings depicting the dramatic contrasts and forces of nature witnessed during their adventures in this region.

GROUP OF SEVEN TOURING ROUTE

Along the Group of Seven touring route, enjoy scenic lookouts, view scenes represented in Group of Seven paintings, the rocky shorelines, open skies and rich colourful old growth forests along the Canadian Shield. Information plaques at each site help place visitors into the shoes of these famous painters. Many works vividly portray brilliant autumn colours for which the region is famous.

ART GALLERY OF ALGOMA

The Group of Seven spent time in the north, far from cities, painting and sketching, going back to their studios and working on larger paintings based on these drawings and sketches. The beauty of the untouched landscape of Northern Ontario brought them to the Algoma Region. The Art Gallery of Algoma collection continues to grow, maintaining a focus on Canadian and regional contemporary art, Indigenous art and includes works by Franklin Carmichael, A.J. Casson, A.Y. Jackson and J.E.H. MacDonald.
